Just as fingerprints offer an infallible means of personal identification of humans, a dog’s nose print is unique to that dog.

If you look closely at a dog’s nose, you will see lines forming patterns. This raises the question – can nose prints be used to accurately identify a dog without a collar or tag? The answer is yes.

There are a few places in the United States that have adopted dog nose printing as a way of identifying lost dogs. The Canadian Kennel Club has been accepting dog nose prints as proof of identity since 1938. The general consensus is that nose printing is a more reliable way of matching identify because tags can be lost. In addition, it provides a less invasive option than tattooing or micro-chipping.

For more information about nose printing and whether the same can be done with cats, ask your veterinarian about companies that do nose printing and keep databases.

Do Eskimos really kiss by rubbing their noses together? The answer is they usually place their nose and top lip against a love one’s forehead as a sign of affection.
DONATION FORM

How your donations helps:

- $30 will sponsor a dog or cat for a month.
- $50 will help spay or neuter a dog or cat.
- $100 will provide needed surgeries.
- $200 will sponsor a dog or cat for one year.
- $500 surgery for a seriously ill or injured animal.

Thanks to you, every animal who comes into our care is given a wonderful new life. Your donation ensures that we can continue our life-saving work. Your donation of any amount, large or small, helps these animals and gives them the “happily ever after” love they deserve.

I’ve enclosed a donation of:

- $20
- $30
- $50
- $75
- $100
- $________

BE A LIFESAVER – Shelter in Dire Need of Foster Homes for Kittens

Foster parents provide temporary care in their homes for kittens. In times of high occupancy at the shelter, we often do not have space to adequately care for the high amounts of kittens that come with the spring mating season. We do our very best but some kittens need as little as two weeks of care, while others may need care for up to three months. By offering your time, energy and home to an animal in need, you prepare the animal for adoption into a permanent home as well as help prevent overcrowding in our shelter. We are in dire need of foster homes for kittens as the busy spring and summer seasons approach. Call us to find out how you can become a LIFESAVER!

EVERYTHING! Love has everything to do with it when you meet your new best friend at the shelter. A bond with your new furry friend is lasting and cannot be replaced! Thank you for giving them a FOREVER HOME.

Bayley was the most loveable sweetest being in the world and we were so blessed to get him.

At 9 years old, he is the love of my life. He is the biggest mama's boy... When I put my hand on him, he just starts to hum.

We cannot thank you enough for allowing us the great opportunity to be Bosley's forever home! We love him.

Bella loves water! She sleeps in the sink all the time and as soon as you turn on the tap, she comes running!

ANNIE - She is such a joy. We just love her

Sebastian after his bath and brushing today. He seemed to really enjoy it. We love him.
